

Practice

Classify an entrance unit, a built-in wardrobe and a ready-made table. Define each scope, its owners and missing information.

Classification and reasons

Deliverables and scope boundaries

Owners and open questions

Review your work against the criteria. Saving it does not constitute technical project approval.

- Each decision connects to a fact or a clear open question.
- The deliverable is complete, dated and reviewable.
- Unconfirmed information is identified before release.
